

# **DI LUSSO AIRCRAFT UPHOLSTERY CERTIFICATION**

Premium Training Manual Aircraft Interior Technician Program Di Lusso Aircraft Interiors LTD

## **Module 1 – Regulatory Foundation**

Aligned with FAA 25.853 and CAR 525.853. Focus on approved data only.

## **Module 2 – Materials and Compliance**

Use aviation-approved leather, fire-rated foam, and adhesives with full traceability.

## **Module 3 – Flammability Standards**

Understand burn tests and system compliance.

## **Module 4 – Standardized Upholstery Workflow**

Disassembly, inspection, foam build-up, patterning, sewing, installation.

## **Module 5 – Foam Build-Up System**

Multi-density layering with fire barriers.

## **Module 6 – Sewing Standards**

301 lockstitch, seam strength, thread selection.

## **Module 7 – Installation and Fitment**

Tight fitment, no wrinkles, straight alignment.

## **Module 8 – Quality Control System**

Inspection checkpoints and defect identification.

## **Module 9 – Documentation and Compliance**

Work orders, traceability, certification logs.

## **Module 10 – AMO Integration**

Integration into AMO systems and procedures.

## **STANDARD OPERATING PROCEDURES**

All work must follow repeatable, documented processes.

## **QUALITY STANDARD**

Zero wrinkles, clean finish, inspection-ready results.

## **CERTIFICATION SYSTEM**

Certificate, task authorization, and training logs included.

## **LEGAL STATEMENT**

This certification is issued by Di Lusso and is not government-issued.
